

Modul 3

# Introduction to Data Science

Data Science Program

# Outline

- Data Science Challenges
- Data Science Workflow
- Data Science Roles
- Group Assignment

# WHAT IS DATA SCIENCE

What is it?

- Is it a Role or Position?
- Is it a Process?
- Is it a problem / challenge ?

Correlations to this term :

- Big Data
- Data Driven
- Machine Learning
- AI
- Distributed computing

# THE RISE OF INTERNET

## DIGITIZATION OF EVERYTHING

# THE RISE OF INTERNET

# BIG DATA : 3V

# MULTI DISCIPLINARY

We need to  
understand the  
**PROBLEM**

1. How the **management** think
2. How the **customer** think
3. How the **market** shifts

# THE QUESTIONS

*“Kami mau pasang iklan, tapi tidak tahu channel mana yang paling efektif”*

*“Ada beberapa produk kami yang tidak laku, walau review sangat bagus”*

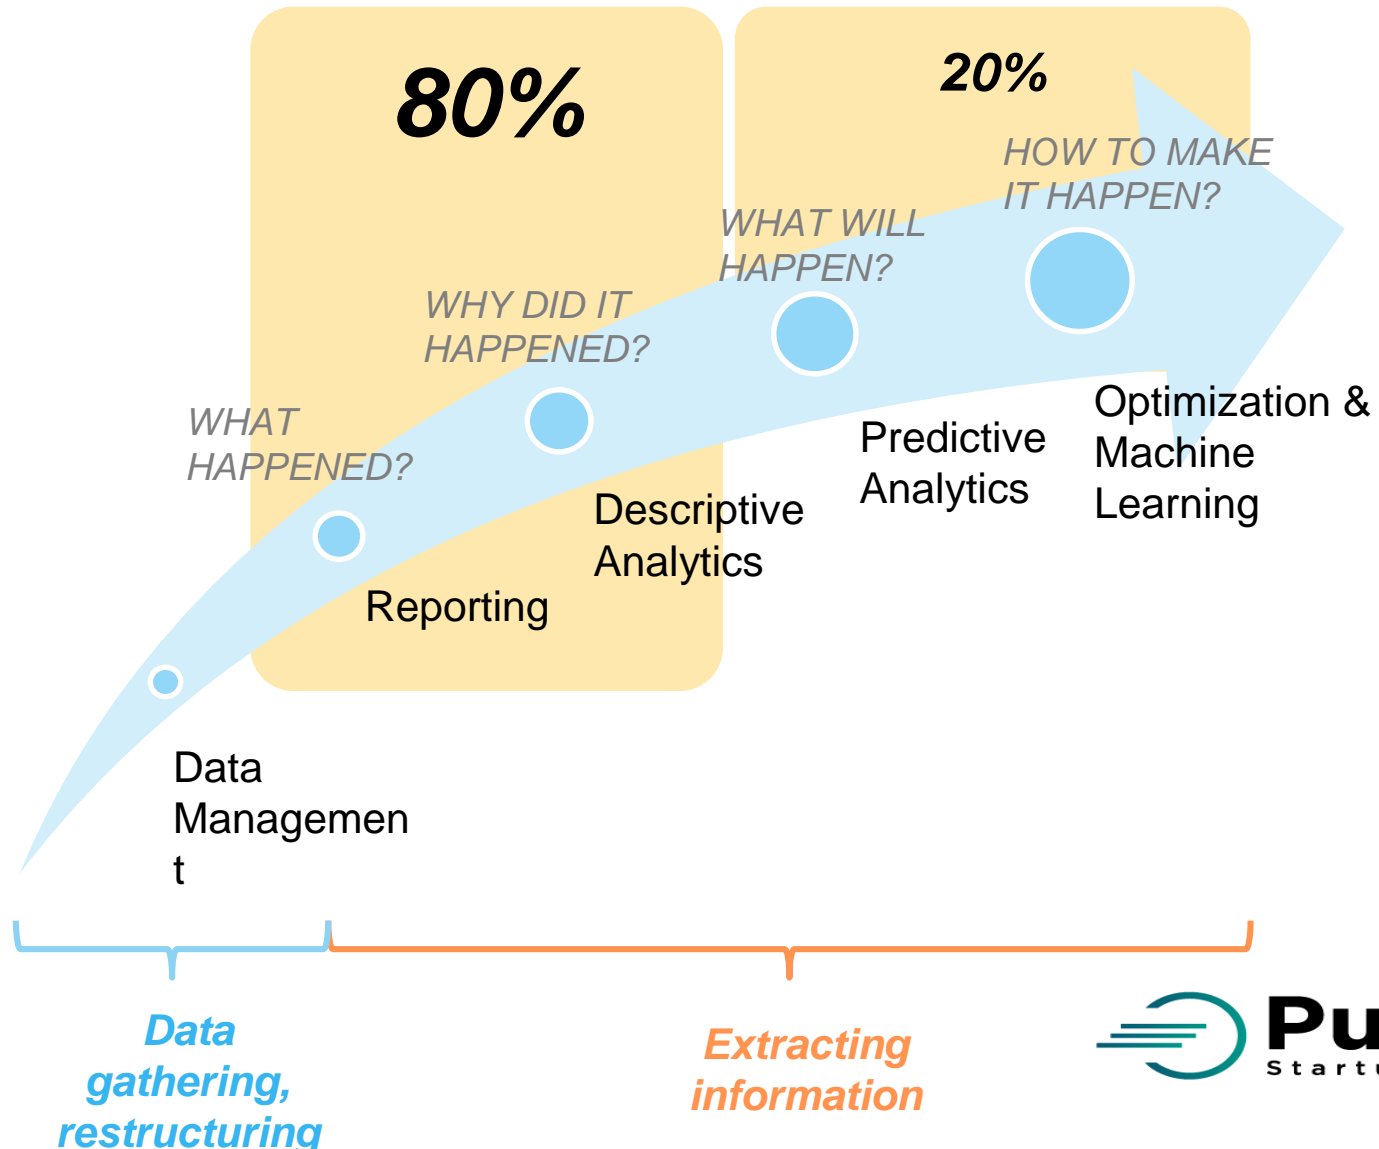

*“Kredit nasabah kami banyak yang macet”*

*“Stock barang selalu habis/terlalu banyak”*

*“Kami tidak tahu seberapa efisien sales person kami”*

# DATA SCIENCE CHALLENGES

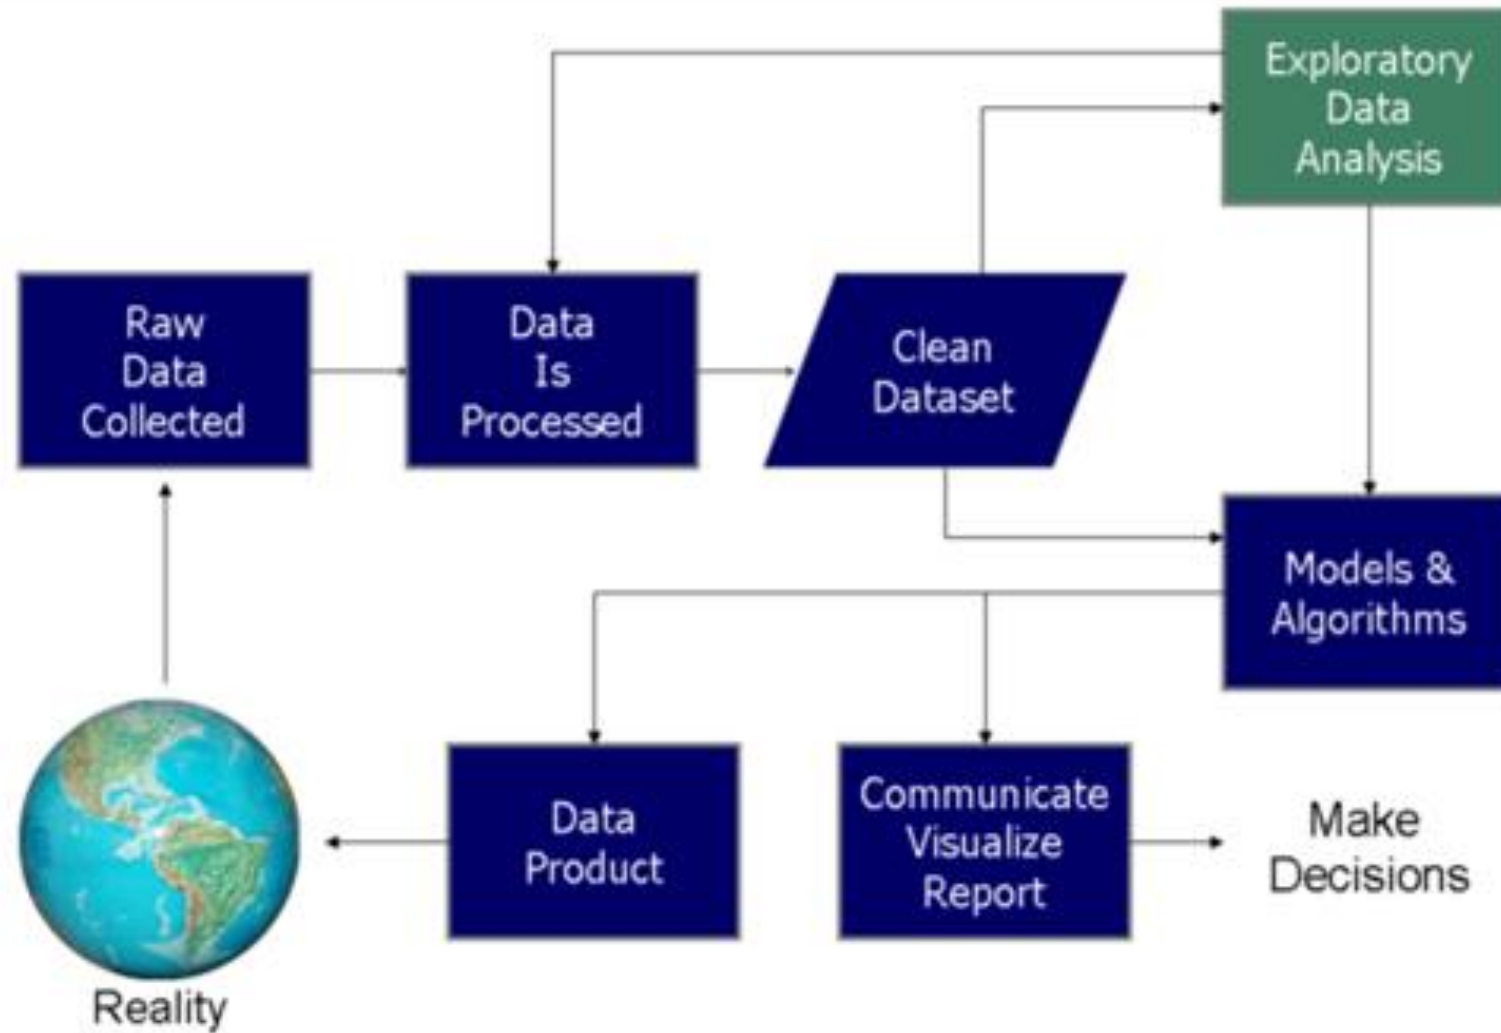

# **DATA SCIENCE WORKFLOW**

# DATA SCIENCE WORKFLOW

# DATA SCIENCE WORKFLOW

# DATA SCIENCE WORKFLOW

## Ask Questions

- Who are the customers?
- Why are they buying our product?
- How do we predict if a customer is going to buy our product?
- What is different from segments who are performing well and those that are performing below expectations?
- How much money will we lose if we don't actively sell the product to these groups?

# DATA SCIENCE WORKFLOW

What needs to be considered :

- Data Sources
- Data Location
- Data Format
- Data Types
- Acquisition Methods
- Data Privacy

# DATA SCIENCE WORKFLOW

Data Sources :

- Users Profile
- Users Activity/Transaction
- Enterprise resources
- World trends/activity

# DATA SCIENCE WORKFLOW

## Data Location

- Inter Department
- Across Department
- External Data
- Public Data

# DATA SCIENCE WORKFLOW

## Data Format

- Hard copy
- Digital Documents
- Database
- Streams

# DATA SCIENCE WORKFLOW

## Data Types

- Numerical
- Text
- Image
- Audio
- Video

# DATA SCIENCE WORKFLOW

## Data Access

- Data warehousing
- REST API
- Web scraping

# DATA SCIENCE WORKFLOW

## Data Privacy

- User Consent : User needs to give consent for any usage purposes
- Data Privacy Law :
  - EU General Data Protection Regulation
  - RUU Perlindungan Data Pribadi

# DATA SCIENCE WORKFLOW

Structured Data

Vs

Unstructured Data

# DATA SCIENCE WORKFLOW

## Data preparation

- Data cleansing
  - Format normalization
  - Typing inconsistency
- Handling NULL values
- Handling outliers
- Feature Selection/Engineering

# DATA SCIENCE WORKFLOW : DATA ANALYSIS AND VISUALIZATION

## DATA ANALYSIS

- Always aim to answer the problem definition
- Identify
  - Variations
  - Correlations
  - Trends
  - Outliers

# DATA SCIENCE WORKFLOW : DATA ANALYSIS AND VISUALIZATION

## DATA Visualization

- Know the audience
- Visualization is all about perception

# DATA SCIENCE WORKFLOW : DATA ANALYSIS AND VISUALIZATION

# DATA SCIENCE WORKFLOW : DATA ANALYSIS AND VISUALIZATION

Average global temperature, 1880 to 2014

60° fahrenheit

# DATA SCIENCE ROLES

## Data Scientist

### Activities

- Data cleansing and Preparation
- Evaluating statistical models
- Build ML Model

### Tools

- R
- Python
- Matlab
- Stata
- SQL
- Spark

### Skills and Talents

- Statistical theories and methodologies
- Database systems
- Programming skills

# DATA SCIENCE ROLES

## Data Engineer

### Activities

- Data Integration
- Product Development (Dashboard, API)
- Scalability and Automation

### Skills and Talents

- Programming skills
- Database system and modelling
- IT Infrastructure and Cloud environment

### Tools

- Database systems: SQL, NoSQL
- Python, Node
- Google Cloud Platform, Amazon AWS
- Distributed System

# DATA SCIENCE ROLES

## Business Analyst

### Activities

- Framing the problem
- Data Exploration
- Presenting Analysis insights

### Skills and Talents

- Business and Domain knowledge
- Communication
- Database query language

### Tools

- Dashboard
- Visualization tools :Tableau, QlikView
- Open Refine
- Powerpoint and Excel

# DATA SCIENCE ROLES

## Domain Expert

### Activities

- Framing the problem
- Provides Consultation to the real world problems

### Skills and Talents

- Business and Domain knowledge
- Communication

### Tools

- (depends on the field)

# DATA SCIENCE ROLES

## Other roles

- Database Admin : Query/Prepare data to be processed/analyse
- Data Architect : Design information architect
- Statistician :
- Developer

# DATA SCIENCE ROLES

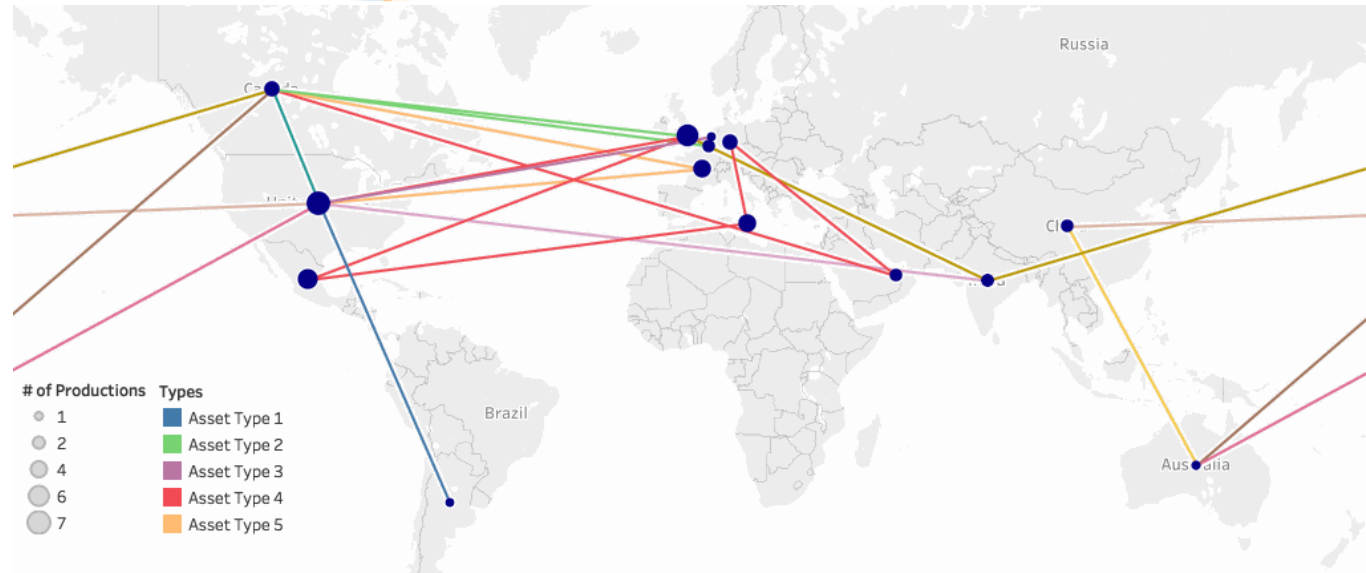

Keep it lean, grow as you go

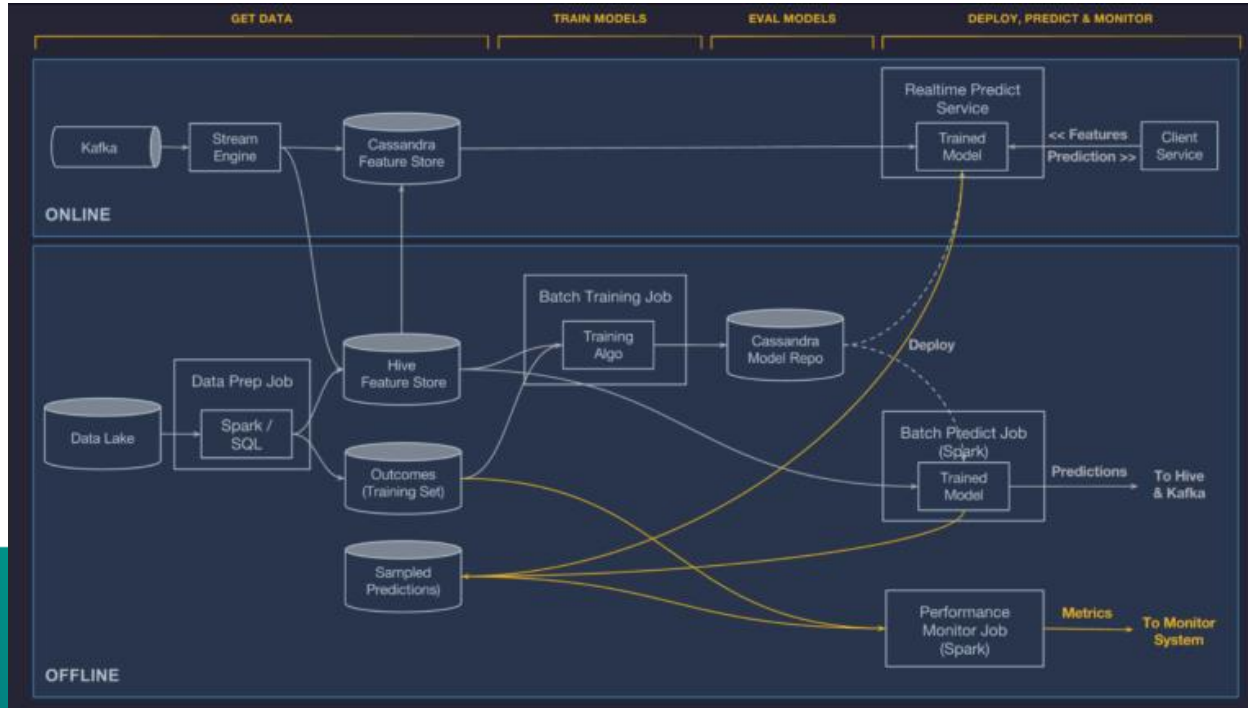

# USECASE : NETFLIX

- Pre-production cost estimation
  - Location
  - Crews
  - Schedule
- Shooting schedules
- Post-Production assets progression
- Prioritization of location

PRODUCTION TEAM: **DOCUMENTARIES** ▾

# Study Case : UberEATS estimated time of delivery model

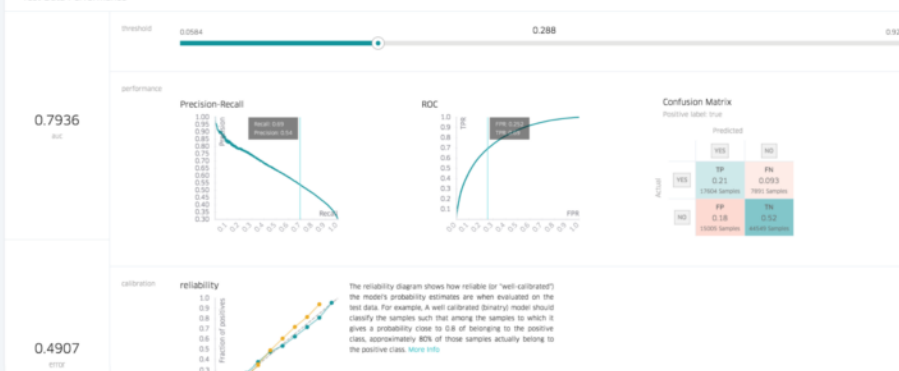

## Michelangelo: Uber's Machine Learning Platform

### Machine Learning Workflow:

- Manage data
- Train models
- Evaluate models
- Deploy models
- Make predictions
- Monitor predictions

Test Data Performance

# ASSIGNMENT

Challenge :

Unilever akan mengeluarkan varian shampo baru. Direksi meminta bantuan kepada tim Data Science untuk memberikan rekomendasi spesifikasi varian tersebut.

# ASSIGNMENT

## PROBLEM IDENTIFICATION :

Define the problem, identify the questions

- What is the problem ?
- Who is having the problem ?
- When is it happening ?
- Where is it happening ?
- What are the expected output?
- What have happened in the past?

# ASSIGNMENT

Plan the data driven Process!

- **Data Acquisition :**  
What data do I need, and how to access them?
- **Data Preparation :**  
Define the ideal data format, and ways to prepare them

# ASSIGNMENT

Plan the data driven Process!

- **Data Acquisition :**  
What data do I need, and how to access them?
- **Data Preparation :**  
Define the ideal data format, and ways to prepare them
- **Data Analysis :**  
What insights do you need, and how to analyse them?
- **Data Visualization:**  
How and to whom do you share your insights
